miRoamer Launches Android Application

Application available FREE on the Android Market

(Melbourne, Australia – 17 November, 2011) – miRoamer, a wholly-owned subsidiary of digital media company Mi Media Holdings Limited and global innovator in the Internet radio industry, announces the launch of the miRoamer Android mobile application.

Part of the miRoamer mobile application suite, the Android application allows users to access tens of thousands of Global AM/FM radio stations anywhere, anytime. The app also includes miRoamer's popular Platinum genre-based music service, providing users with the widest range of streaming media content available. Users can also browse by location, genre, or station name, as well as access local radio stations. The application also includes a recording and playback feature.

"We are pleased to announce the launch of our new Android application to the Market," said George Parthimos, Founder and CEO, Mi Media Holdings Limited. "The application launch aligns with our mobile phone strategy and completes our quartet of smartphone application offerings including our multi-award winning BlackBerry application, iPhone, and Windows Phone 7 products."

The miRoamer Android application showcases the rich digital media capabilities of the Android operating system and architecture. The simple and clean menu design and user interface makes navigation a breeze and provides an enjoyable user experience.

Availability

The miRoamer Android application is available FREE from the Marketplace from November 2011, with an ad-free version also available for \$0.99.
